

CASOL SYSTEMS PRIVATE LIMITED

ENTRANCE AUTOMATION - BOOM BARRIER

CS-EA-BB1000 SERIES

Boom Barrier

PRODUCT DETAILS :

CASOL latest high speed barrier gate, self design and manufacture, highly integrated mechanism and control system, 100% heavy duty operation. Adopts high quality galvanized steel and high class imported traffic powder coated. Dustproof, rainproof and rustproof design, suitable for outdoor and indoor use. It's widely used for applications like parking lot, parking garage, office buildings, industrial parks and residential communities etc.

FEATURES:

The barrier will automatically go back when it meets any obstacle during closing.

AC motor is more powerful and maintenance free.

Beam can be chosen from 3 meters to 6 meters and barrier closing time is also arranged from 1 second to 6 seconds.

The barrier can be installed on the right or left as required.

All the process is smooth without any noise and shaking.

Connections of infrared photocell, loop detector & IC system are reserved for other functions.

Green light and red light are used here for indicating the position of the beam.

“Haadhi Complex”, Second Floor, 15, Police Commissioner Office Road, Egmore, Chennai - 600 008.
